### 2 Nairobi

Today, explore Nairobi. Feed the giraffes at the Giraffe Centre, thereafter enjoy a visit with the elephants at the David Sheldrick Elephant Orphanage followed by a trip into the forest to experience our exclusive Insider Access Activity: Forest Folk Stories with lunch.

Take a short walk beneath the canopy of the Oloolua Forest – a dry tropical forest that once would have covered most of this part of Nairobi. As you near the clearing you will hear drums in the distance and a traditional song of welcome calls you in. From the shadows your storyteller appears, their stories seem to weave a spell around you which intermingles with the sounds of the forest. They will pull you into the magic of the tales that have been handed down from generation to generation; stories of great warriors and tricky tortoises that will leave you captivated. Your lunch is a miniature picnic feast and each bite size delicacy is not only delicious but easy to eat in this beautiful forest setting.

### 3 Ol Pejeta Conservancy

After an early breakfast drive to Ol Pejeta Conservancy in the shadow of Mount Kenya. The conservancy is famous for its rhino conservation program and boasts the largest Black rhino sanctuary in East Africa.

Ol Pejeta has magnificent views across its plains to the peaks of Mount Kenya; a variety of herbivores are found within the reserve and the big cats may also be seen. Orphaned rhino and warthog (one of which was the model for Pumba, from the movie Lion King), which have been reared by hand, provide a wonderful treat for children, as does the chimpanzee sanctuary.

Today is special as you get to meet Najin and Suni, the last two remaining Northern White rhinos in the planet.

In 2009 Ol Pejeta Conservancy welcomed Najin and Suni, the world's last remaining Northern White rhinos, from the Dvůr Králové Zoo in the Czech Republic. They now live in the 700-acre Endangered Species Enclosure and you have an opportunity to meet them up close and hear their amazing stories. Their keeper will also tell you about the incredible efforts being made to save the species from extinction which includes the first rhino artificial insemination using their frozen eggs.

### 5 Ol Pejeta Conservancy

The Conservancy is protected by a large team of rangers who patrol the sprawling land with the help of well trained and loved dogs.

Ol Pejeta’s canine unit plays an important role in the conservancy’s anti-poaching efforts and often proves to be one of the best lines of defense. Learn all about the dogs from their keepers, tour their kennels and then play an exciting game of hide and seek with the canines – you hide, they seek! Not only are the games great fun but they also help train the dogs.
